

## Programming 6

# Workshop on Design Patterns and Clean Architecture for Embedded Systems

johan.korten@han.nl

V1.0 Dec 2025

# Workshop Topics overview

Clean code (beyond SOLID)

CMake

Unit testing

Commenting

**Patterns (Clean architecture)**

# Overview of Today's Topics

- The self-documenting code debate
- The "why" of commenting
- Different levels of documentation
- Practical exercises
- The role of AI in commenting and documenting

# Take away message

“

**That's all...**

**Any questions?**
